

China Custom Ceramic Parts, Inc. COVID-19 Update

As CCCPI has done since the first week of this pandemic when we received an urgent call to ship parts to be used in a ventilator, we continue to focus on supporting our customers and our employees while maintaining a safe work environment following CDC guidelines.

We continue to manufacture critical and essential ceramic components for industries such as:

- Basic Chemical Manufacturing
- Pharmaceuticals
- Medicine Manufacturing
- Plastics Product Manufacturing
- Cement and Concrete Product Manufacturing
- Iron and Steel Mills
- National Defense
- Milk
- Food
- Transportation
- Energy
- Waste Water Treatment
- Lighting
- Blood/Fluid Warmers
- Surgical Devices
- Mission Critical Heating Products
- Automotive Sensors
- Resistors
- Temperature Sensors and Thermocouples
- Igniters

China Custom Ceramic Parts, Inc. greatly appreciates the opportunity to manufacture quality ceramic components for our hundreds of customers located all around the world.

Sincerely,

Executive Directors of China Custom Ceramic
Parts, Inc.
